

Engagement Model Pathway

Engagement Model Pathway

- For students who are on Engagement Model Pathway we monitor and plan for their engagement in the curriculum.
- We use the foci of exploration, realization, initiation, anticipation, persistence to assess and target next steps in development.
- Using a profile scoring of 0-4 we identify strengths and weaknesses in engagement and plan the next steps, whether within the holistic approach, class provision or provision plans.
- Engagement profiles are reviewed termly and 'what it would look like for me' next steps planned for.
