- The Internet, which may include search engines and educational sites
- School learning platform/intranet
- Email

At **Elms school** we recognise the essential and important contribution that technology plays in promoting your learning and development, both at school and at home. However, we also recognise there are potential risks. The school will take all reasonable precautions to ensure that you are as safe as possible when using school equipment and will work together with you and your family to help you stay safe online.

At Elms school we want to ensure that all members of our community are safe and responsible uses of technology. We will support you to:

You can also access support through the school pastoral team, Mr Bennett, Miss Muir, Miss Stirland or Miss Beaumont and via other websites such as www.thinkuknow.co.uk and www.childline.org.uk

We request that you and your family read our school Acceptable Use Policy and return the attached slip. We look forward to helping you become a positive and responsible digital citizen.

2. I use my own devices in school, when allowed, including mobile phones and gaming devices.
3. I use my own equipment out of the school, in a way that is related to me being a member of the school community, including communicating with other members of the school, accessing school email, learning platform or website.

Dear Parent/Carer

All pupils at **Elms school** use computer facilities and internet access, as an essential part of learning as required by the National Curriculum. Your child will have the opportunity to access a wide range of information and communication technology (ICT) resources. This includes access to:

- Computers, laptops and other digital devices
- The Internet, which may include search engines and educational sites
- School learning platform/intranet
- Email
- Games consoles and other games-based technologies
- Digital cameras

Elms school recognises the essential and important contribution that technology plays in promoting children's learning and development, believe it and offers a fantastic range of positive activities and experiences. We do recognise however that this can bring risks. We take your child's online safety seriously and, as such, will take all reasonable precautions, including monitoring and filtering systems, to ensure that pupils are safe when they use our internet and systems. This includes: **Lightspeed** a web filtering system that is crucial to ensuring that students are using the web appropriately. Lightspeed Filter offers the flexibility to ensure policy enforcement on both networked and mobile devices. Lightspeed Web Filter also gives extensive reporting and an easy to use dashboard, as well as the ability to set custom reports so that you can see what you need when you need it.

We recognise however that no technical system can replace online safety education and believe that children themselves have an important role to play in developing responsible behaviour. To support the school in developing your child's knowledge and understanding about online safety, we request that you read the attached Acceptable Use Policy with your child, discuss the content with them and return the attached slip.

We understand that for some, your child is too young to give informed consent on his/ her own; however, we feel it is good practice to involve them as much as possible in the decision-making process, and believe a shared commitment is the most successful way to achieve this.

Hopefully, you will also find this Acceptable Use Policy provides you with an opportunity for conversations between you and your child about safe and appropriate use of the technology, both at school and at home.

We request that all parents support our approach to online safety by role modelling safe and positive online behaviour and by discussing online safety whenever children access technology at home. Parents can visit the school website's (www.elmsschool.org) for more information about our approach to online safety. Full details of the school's online safety policy are available on the school website or on request. Parents/carers may also like to visit the following links for more information about keeping children safe online:

Pupil Acceptable Use Policy: Elms school Parental Acknowledgment

I, with my child, have read and discussed Elms school Pupil Acceptable Use Policy.

This monitoring will be proportionate and will take place in accordance with data protection, privacy and human rights legislation.

I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that the school will contact me if they have concerns about any possible breaches of the Acceptable Use Policy or have any concerns about my child's safety.

I will inform the school or other relevant organisations if I have concerns over my child's or other members of the school communities' safety online.

I know that my child will receive online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I will support the schools online safety approaches and will encourage my child to adopt safe use of the internet and digital technologies at home.

Staff Acceptable Use Policy

As a professional organisation with responsibility for safeguarding, it is important that staff take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. All members of staff have a responsibility to use the school's computer system in a professional, lawful, and ethical manner. To ensure that members of staff are fully aware of their professional responsibilities when using technology, they are asked to read and sign this Acceptable Use Policy.

This is not an exhaustive list; all members of staff are reminded that IT use should be consistent with the school ethos, school policies, national/local guidance and expectations, and the Law.

1. I understand that Information Systems and IT include networks, data and data storage, online and offline communication technologies and access devices. Examples include laptops, mobile phones, tablets, digital cameras, email and social media sites.
2. School owned information systems must be used appropriately. I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
3. I understand that any hardware and software provided by my workplace for staff use can only be used by members of staff and only for educational use. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or locking my login as appropriate. I will protect the devices in my care from unapproved access or theft.
4. I will respect system security and will not disclose any password or security information. I will use a 'strong' password to access school systems. A strong password has numbers, letters and symbols, with 8 or more characters, does not contain a dictionary word and is only used on one system.
5. I will not attempt to install any purchased or downloaded software, including browser toolbars, or hardware without permission from the system manager.
6. I will ensure that any personal data of pupils, staff or parents/carers is kept in accordance with the Data Protection legislation (including GDPR).
 - This means that all personal data will be obtained and processed fairly and lawfully, only kept for specific purposes, held no longer than necessary and will be kept private and secure with appropriate security measures in place, whether used in the workplace, hosted online or accessed remotely.
 - Any data being removed from the school site (such as via email or on memory sticks or CDs) will be suitably protected. This may include data being encrypted by a method approved by the school e.g. KLZ secure emails and password protected USB sticks.
 - Any images or videos of pupils will only be used as stated in the school image use policy and will always reflect parental consent.

7. I will not keep documents which contain school-related sensitive or personal information, including images, files, videos and emails, on any personal devices, such as laptops, digital cameras, and mobile phones. Where possible, I will use the School Learning Platform to upload any work documents and files in a password protected environment or via VPN.
8. I will not store any personal information on the school computer system including any school laptop or similar device issued to members of staff that is unrelated to school activities, such as personal photographs, files or financial information.
9. I will respect copyright and intellectual property rights.
10. I have read and understood the school online safety policy which covers the requirements for safe IT use, including using appropriate devices, safe use of social media and the supervision of pupils within the classroom and other working spaces. I will immediately report any illegal, inappropriate or harmful material or incidents I become aware of, to the Designated Safeguarding Lead (**Mrs A Falluto**).
11. I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware, or if I have lost any school related documents or files, I will report this to the ICT Support Provider/Team/lead (**Ms S Roles**) as soon as possible.
12. My electronic communications with current or past pupils, parents/carers and other professionals will take place within clear and explicit professional boundaries and will be transparent and open to scrutiny.
 - All communication will take place via school approved communication channels, such as a school provided email address or telephone number, and not via my personal devices or communication channels, such as personal email, social networking or mobile phones.
 - Any pre-existing relationships or situations that may compromise this will be discussed with the Designated Safeguarding Lead (**Mrs A Falluto**) and/or headteacher.
13. I will ensure that my online reputation and use of IT and information systems are compatible with my professional role, whether using school or personal systems. This includes the use of email, text, social media, social networking, gaming and any other devices or websites.
 - I will take appropriate steps to protect myself online as outlined in the **Online Safety Policy** and will ensure that my use of IT and the internet will not undermine my professional role, interfere with my work duties and will be in accordance with the **school code of conduct or behaviour policy** and the Law.
14. I will not create, transmit, display, publish or forward any material online that is likely to harass, cause offence, inconvenience or needless anxiety to any other person, or anything which could bring my professional role, the school, or the County Council, into disrepute.
15. I will promote online safety with the pupils in my care and will help them to develop a responsible attitude to safety online, system use and to the content they access or create.
16. If I have any queries or questions regarding safe and professional practice online either in school or off site, I will raise them with the Designated Safeguarding Lead (**Mrs A Falluto**) **and/or** the headteacher.

17. I understand that my use of the school information systems, including any devices provided by the school, including the school internet and school email, may be monitored and recorded to ensure the safety of children and staff and to ensure policy compliance. This monitoring will be proportionate and will take place in accordance with data protection, privacy and human rights legislation.

18. I understand that the school may exercise its right to monitor the use of information systems, including internet access and the interception of emails, to monitor policy compliance. Where it believes unauthorised and/or inappropriate use, or unacceptable or inappropriate behaviour may be taking place, the school may invoke its disciplinary procedures. If the school suspects criminal offences have occurred, the matter will be brought to the attention of the relevant law enforcement organisation.

Sample Letter for Staff

Dear member of staff name

At Elms school we recognise that staff can be vulnerable to online risks. Social media can blur the definitions of personal and working lives; it is important that all members of staff at Elms school take precautions to protect themselves both professionally and personally online. We request that all members of staff:

- Are conscious of their own professional reputation and that of the school when online.
 - All members of staff are strongly advised in their own interests to take steps to ensure that their personal information and content is not accessible to anybody who does not or should not have permission to access it.
 - Content shared online cannot be guaranteed to be “private” and could potentially be seen by unintended audiences. This could have consequences including civil, legal and disciplinary action being taken.
- Are aware that as professionals, we must ensure that the content we post online does not bring the school or our professional role into disrepute and does not undermine professional confidence in our abilities.
 - The teaching standards state that as professionals we should be achieving the highest possible standards in our conduct, act with honesty and integrity and forge positive professional relationships.
- All Staff be careful when publishing any information, personal contact details, video or images online.
 - It is very important to be aware that sometimes content shared online, even in jest, can be misread, misinterpreted or taken out of context, which can lead to complaints or allegations being made. Don't be afraid to be yourself online but do so respectfully.
 - Ensure that the privacy settings of the social media sites you use are set appropriately.
 - Consider if you would feel comfortable about a current or prospective employer, colleague, child in your care or their parent/carer, viewing or sharing your content. If the answer is no, consider if it should be posted online at all.
- Do not accept pupils (past or present) or their parents/carers as “friends” on a personal account.
 - You may be giving them access to your personal information and allowing them to contact you inappropriately through unregulated channels. They may also be giving you access to their personal information and activities which could cause safeguarding concerns.
 - If you have a pre-existing relationship with a child or parent/carer or any other situation that may compromise this, speak to the Designated Safeguarding Lead (**Mrs A Falluto**).
- Always use a work provided email address or phone number to contact children and parents – this is essential to protect yourself as well as the wider community.

- If you are concerned about a child’s wellbeing or online behaviour, please speak to the Designated Safeguarding Lead (**Mrs A Falluto**). If you are targeted online by a member of the community or are concerned about a colleague, then please speak to the headteacher and/or chair of governors (**Alex Hadley**).
 - If you are unhappy with the response you receive, or do not feel able to speak to the Designated Safeguarding Lead, headteacher or chair of governors then we request you follow our Whistleblowing procedure (www.elmsschool.org)
- If you have any questions regarding online conduct expected of staff, please speak to the Designated Safeguarding Lead (**Mrs A Falluto**) and/or headteacher.

Documents called “Cyberbullying: Supporting School Staff”, “[Cyberbullying: advice for headteachers and school staff](#)” and “[Safer professional practise with technology](#)” are available in the staffroom to help you consider how to protect yourself online.

Please photocopy them if you want or download the documents directly from:

Additional advice and guidance for professionals is available locally through the Education Safeguarding Team or nationally through Professional Unions and/or the Professional Online Safety helpline www.saferinternet.org.uk/about/helpline

I would like to remind all staff of our Acceptable Use Policy and the importance of maintaining professional boundaries online. Failure to follow this guidance and the school [behaviour policy/code of conduct](#) could lead to disciplinary action; it is crucial that all staff understand how to protect themselves online.

Please speak to your line manager, the Designated Safeguarding Lead (**Mrs A Falluto**) or myself if you have any queries or concerns regarding this.

This is not an exhaustive list and all members of the school community are reminded that ICT use should be consistent with the school ethos, other appropriate policies and the Law.

1. The school provides Wi-Fi for the school community and allows access for approved school activities or Professional requiring Wi-Fi connections.
2. I am aware that the school will not be liable for any damages or claims of any kind arising from the use of the wireless service. The School takes no responsibility for the security, safety, theft, insurance and ownership of any device used within the School premises that is not the property of the School.
3. The use of ICT devices falls under **Elms school's** Acceptable Use Policy, online safety policy and behaviour policy and Safeguarding/Child Protection Policy, which all pupils/staff/visitors and volunteers must agree to and comply with.
4. The school reserves the right to limit the bandwidth of the wireless service, as necessary, to ensure network reliability and fair sharing of network resources for all users.

School owned information systems, including Wi-Fi, must be used lawfully; I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
6. I will take all practical steps necessary to make sure that any equipment connected to the schools' service is adequately secure, such as up-to-date anti-virus software, systems updates.
7. The school's wireless service is not secure, and the school cannot guarantee the safety of traffic across it. Use of the school's wireless service is done at my own risk. By using this service, I acknowledge that security errors and hacking are an inherent risk associated with any wireless network. I confirm that I knowingly assume such risk.
